SEX WORKERS OUTREACH PROJECT

"Connection" by W. Gordon

**Supporting Aboriginal &
Torres Strait Islander Peoples**

STAYING SAFE WHEN YOU'RE DOING SEX FOR FAVOURS

Remember you don't need to do anything you don't want to

Get the money up front

Your safety comes first

Trust your gut instinct.
If it doesn't feel right, leave

If they take you somewhere you don't know,
look for landmarks you will remember

Using lube will help stop condoms from breaking

Use condoms to avoid STIs and pregnancy.
Store them in a cool place

Gammin you're telling someone where you're going so the captain or client hears, makes them think you have someone looking out for you

Remember what the captain or client looks like,
the rego plates and anything else

Go to places you know

Tell a friend if you're working and where you'll be
